

500 Index Fund Admiral Shares – VFIAX

<https://institutional.vanguard.com/web/cf/product-details/fund/0540>

Vanguard 500 Index Fund seeks to track the investment performance of the Standard & Poor's 500 Index, an unmanaged benchmark representing U.S. large-capitalization stocks. Using full replication, the portfolio holds all stocks in the same capitalization weighting as the index. The experience and stability of Vanguard's Equity Index Group have permitted continuous refinement of techniques for reducing tracking error. The group uses proprietary software to implement trading decisions that accommodate cash flow and maintain close correlation with index characteristics. Vanguard's refined indexing process, combined with low management fees and efficient trading, has provided tight tracking net of expenses.

Total Bond Market Index Fund Admiral Shares – VBTIX

<https://institutional.vanguard.com/web/cf/product-details/fund/0584>

Vanguard Total Bond Market Index Fund seeks to track the investment performance of the Bloomberg Barclays U.S. Aggregate Float Adjusted Index, an unmanaged benchmark representing the broad U.S. bond market. The fund invests in investment-grade corporate, U.S. Treasury, mortgage-backed, and asset-backed securities with short, intermediate, and long maturities in excess of one year, resulting in a portfolio of intermediate duration. The fund's passive investment style uses a sampling technique to closely match key benchmark characteristics: sector weight, coupon, maturity, effective duration, convexity, and credit quality. Optimized sampling is designed to avoid the expense and impracticality of fully replicating the index.
